DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-12 and 20-22, drawn to managing a transport stream to maintain a minimum bandwidth for a VOD transport stream, classified in class 725, subclass 87.
 - II. Claims 13-19, 23 and 24, drawn to stuffing packet insertion to maintain a CBR packet stream, classified in class 725, subclass 93.
 - III. Claim 25, drawn to resynchronizing a digital receiver MPEG framer to a transport stream, classified in class 725, subclass 100.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable.

In the instant case, invention II has separate utility such as providing a transmission system which utilizes and maintains CBR encoding.

In the instant case, invention III has separate utility such as ensuring that a digital receiver is properly synchronized with a transport stream.

See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and

Art Unit: 2617

because these inventions are distinct for the reasons given above and the search required for Group I is not required for Groups II and III, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Eric Whitesell on 07/12/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to James Sheleheda whose telephone number is (571) 272-7357. The examiner can normally be reached on 9:00-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chris Kelley can be reached on (571) 272-7331. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
